# Cautionary Statement To Owners Obtaining Building Permits

101.65(lr) of the Wisconsin Statutes requires municipalities that enforce the Uniform Dwelling Code to provide an owner who applies for a building permit with a statement advising the owner that if the owner hires a contractor to perform work under the building permit and the contractor is not bonded or insured as required under s.101.654(2)(a), the following consequences might occur:

- a. The owner may be held liable for any bodily injury to or death of others or for any damage to the property of others that arises out of the work performed under the building permit or that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.
- b. The owner may not be able to collect from the contractor damages for any loss sustained by the owner because of a violation by the contractor of the one and two family dwelling code or an ordinance enacted under sub.(1)(a), because of any bodily injury to or death of others or damage to the property of others that arises out of the work performed under the building permit or because of any bodily injury to or death of others or damage to the property of others that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.

You are hereby advised that the owner, as defined in 101.01(2)(e) of Wisconsin State Statutes is responsible for all code requirements not specifically cited herein.

The Applicant (Property Owner or Contractor) agrees to comply with the Wisconsin Uniform Dwelling Code, Wisconsin Enrolled Commercial Building Code, and all other applicable codes and municipal ordinances and with the conditions of this permit. The Applicant understands that the issuance of the permit creates no legal liability, express or implied, on the Inspection Agency or municipality and certifies that the information is accurate. The Applicant agrees to allow the building inspection and assessing to access the property for the inspection of this permit. Applicant is responsible for calling and scheduling all inspections to close out the permit once work is complete.

Applicant signature agrees to the terms of this Permit Application.
